EDUCATION

Dr A. P. J Abdul Kalam Technical University   Lucknow(UP)
Computer Science B. Tech   Sept 2020 - July 2024
Percentage: 75%

EXPERIENCE

Agbe Technologies | Software Engineer   Gurugram | Dec 2024 - Present
Utilized and expanded my expertise in Front-End and Back-End Technologies, including ReactJs, Redux,NodeJs, and ExpressJs, on various projects.
Maintained a focus on clean coding practices and design patterns to ensure high-quality code, easy maintenanceand scalability.
Continued to work with agile methodologies, to effectively manage projects and deliver features on time.
Collaborated with the team to implement new features and resolve critical bugs.

Agbe Technologies | Software Engineer,Intern   Gurugram | July 2024 - Nov 2024
Learned and gained practical experience in Front-End and Back-End Technologies, including ReactJs, Redux , GraphQL, NodeJs, and ExpressJs.
Built projects using the learned technologies, gaining hands-on experience and strengthening my skills.

SKILLS

Programming Languages:	Core Java, C, HTML, CSS, JavaScript
Libraries/Frameworks:	React, Redux, Express, Nodejs, Git, Github, VSCode, Postman, APICurio, MongoDB, Docker(Familiar), Jest, Jira, Eclipse

PROJECTS / OPEN-SOURCE

TVS 3-Wheeler(Client-Project)   *React, Redux, Express, Nodejs,TailwindCSS,Git,Github,Postman*
Developed reusable and responsive UI components using React.js & SCSS, enhancing user experience.
Designed and optimized backend APIs with Node.js & MongoDB, reducing response time by 35%.
Implemented state management techniques, ensuring smooth data flow and 15% better performance.
Utilized Jest framework to write comprehensive unit tests, ensuring the reliability and stability of the codebase
Followed best practices in version control & CI/CD, ensuring efficient deployment.

Grest Ecommerce Web Application (Client Project)   *React, Redux, Express, Nodejs,Material UI,*
Developed a feature-rich mobile & laptop marketplace using React.js, Redux, and Material UI.
Built a scalable backend using Node.js & Express.js, optimizing product management and order processing.
Integrated MongoDB for secure data storage and Razorpay API for payment processing.
Enhanced API efficiency by 30% through optimized database queries and caching strategies.
Implemented key features like product listing, cart management, user authentication, and checkout process.

HONORS & AWARDS

- 5-Star Ratings in Java & C Programming on HackerRank and solved 300+ LeetCode problems using Core Java.
- 1st Rank in IIMT INFINITY 2K21, Rank 3533 in Prepsat Jobathon (out of 90,678 participants)
